**Dornach, 20 May 2008**

## **Swissmetal demonstrates its know-how at SIAMS**

From 20 to 24 May 2008 Swissmetal presents itself at the SIAMS exhibition in Moutier, Switzerland (Kanton of Berne), as a world leader in the manufacture and supply of high-quality products made of copper and copper alloys. This specialist exhibition for automation, tool machines and supplies, which is now being held for the eleventh time, is seen as the sector's meeting point for customers, suppliers and all manufacturing specialists in the microtechnology industries and it is an exhibition for intensive exchanges with customers.

The exhibition participation allows Swissmetal to present a large number of high-quality products of the most varied categories and new developments to its customers and to interested parties. On the exhibition stand, exhibition visitors are shown rods and wires of different alloys, shapes and dimensions, especially for the turned parts industry. Reliable connectors which are to be found in almost every airplane and other high technology products are also being shown. Other points of focus are provided by products for the watch industry, for the medical industry and high-quality pen tips from Swissmetal. The experienced Product Managers are available at all times to answer technical questions.

You will find Swissmetal on Stand A16 in Hall 3.

Swissmetal produces and sells worldwide high-quality special products made of copper and copper alloys which are mainly used in the electronics, telecommunications, air travel, petroleum, automobile, stationery and watch/clock industries and in the architectural sector. In financial year 2007, Swissmetal achieved turnover of CHF 407.0 million. As at end of April 2008, the company had 658 full time-employees. Swissmetal, with its registered office in Dornach (Switzerland) is quoted on the SWX Swiss Exchange as UMS Schweizerische Metallwerke Holding AG.
