Dornach, December 02, 2008

Sophisticated Swissmetal products at the turntec

The renowned international trade fair turntec will take place in Frankfurt/Main from the 3rd - 5th December. As a leading global manufacturer and supplier of high quality products from copper and copper alloys, Swissmetal shall be responding to interested inquiries and requests from visitors to the fair. The trade fair, taking place for the seventh time this year, is an industry meeting place for specialists in the fields of turned parts, turning and milling technology.

With its presence at the trade fair that Swissmetal considers so important, the company will be presenting a range of technically sophisticated products for use across a whole spectrum of industrial applications, such as connectors which are found in almost every aircraft and other high-tech products, as well as new alloys including NP6, PS2 and B05. The professional point of contact for Avins, responsible for the sales and distribution of Swissmetal products, and the local product managers will be available to discuss the broad spectrum of products and services on offer with all invited visitors and interested parties.

Swissmetal can be found in Hall 5.00, at Stand E65.

Swissmetal produces and sells worldwide high-quality special products made of copper and copper alloys which are mainly used in the electronics, telecommunications, air travel, petroleum, automobile, stationery and watch/clock industries and in the architectural sector. In financial year 2007, Swissmetal achieved turnover of CHF 407.0 million. As at end of October 2008, the company had 706 full time-employees. Swissmetal, with its registered office in Dornach (Switzerland) is quoted on the SWX Swiss Exchange as Swissmetal Holding AG.
